Amicable Numbers:

```
#include <iostream>
using namespace std;
#define MAX 1000
int main()
{ int sum [MAX+1] = {0};
int L, R, i, j, count;
  for (i=1; i<=MAX/2; i++)
    { for (j=i*2; j<=MAX; j+=i)
      { sum[j] += i;
    }
    }
    while true
    { cin >> L >> R;
      if (L==0 && R==0)
      break;
    for (i=L; i<=R; i++)
      { j = sum[i];
```
